

Machmade Ltd.

Dyno Plumbing and Drains

Waste Management Policy and Intentions plan

Machmade Ltd understands that the correct handling, storage, and disposal of waste materials are vital to ensure compliance with Environmental legislation and pollution prevention. We fully comply with our Duty of Care responsibilities and ensure that our waste does not escape from our control and is passed only to an authorised person accompanied by a full written description in the form of Waste Transfer Notes.

We are part of Dyno's ISO14001 accreditation for 2018/19. We do not currently have our own accreditation.

Specific Aims

As part of our commitment to preserving and protecting the natural environment and reducing waste levels we will commit to the following actions:

1. Meet our obligations under the Waste Hierarchy, including the segregation of hazardous waste streams and a mechanism for safe disposal.
2. To raise awareness amongst our employees of the impact of good waste management and waste minimisation.
3. Move to a paperless office wherever feasible and reduce the usage of paper.
4. Favour where possible suppliers who remove packaging as part of their contract.
5. Favour suppliers who actively operate according to sound environmental practices.
6. Develop & maintain our company waste management plan report in order to accommodate effective waste management and minimise pollution. Share the outputs with staff to drive greater compliance to our environmental expectations
7. Ensure that all waste handlers who act on our behalf do so in accordance with good practices and regulatory requirements. We will conduct duty of care checks as required by law on our appointed waste carriers
8. Implement environmental management in conjunction with guidance given in the Dyno HSE Framework document
Encourage the procurement of recycled materials and those which are suitable for disposal by recycling.
9. Provide well maintained waste disposal facilities at our office premises, secured against trespass and the escape of waste materials
10. Have robust spill response processes to deal with any accidental release of material that could impact ground conditions, water courses, etc. All environmental incidents to be reported via MyHse on 03332029615

11. Receive & share with our employees regular updates from our Waste handlers to identify our waste performance data and use this to drive further improvements

Recycling

Kirkby Skips

At Kirkby Skips Limited, we are committed to disposing your waste in an environmentally-friendly way. At least 90% of mixed general waste is recycled, thereby reducing the amount of waste sent to Landfill sites. For larger companies with high waste outputs, we can perform on-site audits and introduce waste segregation. Not only does waste segregation help the environment by raising recycling levels, but can also save money by reducing landfill taxes.

We offer Monthly Waste Recycling Reports to All customers to show All Waste that has been recycled in our Waste Transfer Recycling Facility.

We offer the following Recycling Reports to show all the Waste Recycled in our Waste Transfer Recycling Facility:

***DAILY RECYCLING REPORT:** This report gives a daily breakdown of each skip, showing the percentage of each waste in the skip, percentage of each waste recycled and the weight of each skip.

***MONTHLY RECYCLING REPORT:** This report gives a monthly breakdown of all the waste removed from site, showing the percentage of each waste recycled, and the total weight of the waste removed.

We Recycle the following waste in our Recycling Facility:

- > Wood
- > Hardcore
- > Soil
- > Plasterboard
- > Plastic
- > Cardboard
- > Metal
- > PVC
- > Greenwaste
- > Glass
- > Tiles/ Ceramics
- > WEE

To ensure that your waste is carried, treated and disposed correctly, our Transfer Station is Licensed and audited to comply with legal and environmental requirements

Kirkby Skips
Aim to Recycle
90% Of Waste

We will acknowledge respect & respond appropriately on the views of the public, our business neighbours and any other interested parties, with respect to our operations & its impact on the environment.

In addition, this policy will be communicated at induction & as part of ongoing refresher training to all persons working for and on behalf of Machmade Ltd.

Signed on behalf of Machmade Limited.

Neil Illingworth.

Managing Director
